

The K-LOVE station in Fargo/Moorhead area has changed my life. I just recently moved up here to attend college and without K-LOVE I think I would be going nuts. Before I moved here I never used to listen to Christian radio stations but now K-LOVE is the only station that I ever listen to. K-LOVE brightens up my day all the time and when I am feeling down it seems to bring me right back up. If K-LOVE were to be taken out of this community I think it would be in trouble. There are so many listeners in this area and with 3 colleges in the area I think this station is highly beneficial because everyone needs God and if through this station is how He gets to some of the students up here than that's awesome. The service provided by K-LOVE is something I have never seen before. They are listener supported which means the station is all about you! Every other radio station has 10 commercials to every one song but not K-LOVE. It also provides hope and healing for many area listeners. If you don't believe me turn it on sometime and listen to the phone calls received. God's word needs to be spread and through this radio station it's getting out there. If K-LOVE radio stations start disappearing not just in my area either but anywhere I think you'll have a very large problems on your hands. No one has any problem with talking about sex or drugs on the radio therefore talking about God should be no different. If K-LOVE stations are the only ones being targeted like this I am very disappointed in the values of your organization. Your job is to keep the radio clean so everyone can listen...well if you leave K-LOVE stations alone it will make your job a lot easier because those stations you don't have to worry about at all. Without your help they keep swear words and references to sex and drugs off the air. I support K-LOVE and want nothing more than to make sure it continues to be on the air in my area and everywhere!
